# JOHNS HOPKINS HALF-CENTURY DIRECTORY

1876-1926

## ERRATA

JOHNS HOPKINS UNIVERSITY  
BALTIMORE

AS the result of the statement found in The Foreword to The Half-Century Directory, that "we shall be grateful for any corrections sent us," we are herewith issuing a List of Errata, which have been brought to our attention from various sources. That any mistakes should have been made in The Directory is greatly to be regretted, but it is the universal experience of those who have published Directories, that in a work of such character, particularly the first edition, a certain percentage of mistakes are almost inevitable, and this in spite of the most conscientious compilation and the most careful editing. This List of Errata, therefore, is sent to subscribers not only as a correction of the errors that so far have been found in the Half-Century Directory, but as an apology to those who have been in any way embarrassed by those errors.

Because the accuracy of any Directory depends so much upon the co-operation of those who are listed therein, we urge all of our subscribers not only to call our attention to any further errors that they may discover, but to furnish us with any information which will help us to make our records more complete. Information is particularly desired concerning those that are marked "(address unknown)".

The List of Errata herewith presented does not include any change of address, nor any change of Academic History or of Occupation which may have gone into effect since the publication of The Directory. Information as to such changes is always gratefully welcomed.

J. S. AMES,  
*Provost.*

## FOREWORD

This volume aims to include all persons who have been, or are, trustees of the Johns Hopkins University, recipients of honorary degrees, and members of the faculty and students in the Graduate School of Philosophy, the School of Medicine, the School of Hygiene and Public Health, the College of Arts and Sciences, the School of Engineering, and the School of Business Economics, recipients of certificates of Proficiency in Applied Electricity, and those students in the College for Teachers who have been accepted as matriculates or candidates for matriculation and have since attended courses. It does not include attendants upon special courses for physicians at the Medical School, attendants upon summer courses, special students in the College for Teachers, special students in Social Economics, special students in the School of Hygiene and Public Health, attendants upon evening courses in Business Economics and Engineering, except as these may have been students in some of the divisions of the University mentioned in the first general group above. It includes the names of about 12,940 individuals, of whom 1348 are dead. Of the living there are 330 for whom we do not have addresses.

This is the first directory of the University that has endeavored to include all students who attended and left without receiving degrees. Previous directories have included only those who received degrees or had been fellows. It is, in fact, the first list compiled since 1886 that has endeavored to assemble the names of all students in attendance up to the date of compilation even within the limits of this book as outlined above. If there are omissions, they have occurred in spite of a careful scrutiny of the successive University registers and the admission and attendance records.

When the work of preparing a directory was begun there were available in the excellently kept files of Mr. Ball and Dr. Roulston addresses or date of death for the graduates of the University. In addition there were at hand the highly accurate files of Mr. Coy for graduates of the Medical School and of Miss Durham for graduates of the School of Hygiene and Public Health. Those former students who had left the University without taking degrees were, with but few exceptions, not included in these various records. The latter have almost all been found and the 6,000 names for whom information was originally at hand have now been increased to about 13,000.

It is intended to give information concerning each person listed on the following four points and in the following order:

1. Johns Hopkins connection, appearing after each name, enclosed within square brackets, and printed in boldface type.
2. Connection with other institutions of learning of collegiate or university grade.
3. Present position.
4. Address if living, note of death if dead.

There are no references to honors except honorary degrees conferred by colleges or universities.

## FOREWORD—Concluded

We have made every effort to be accurate in the presentation of our material. We have spared no pains to obtain information about the persons whose names appear in the directory, consulting the alumni catalogues of many colleges and universities and general works of reference, and have submitted our findings to all the living for whom we had addresses, asking for corrections and additions. Nevertheless, we have no doubt that many errors will be found. We have tried especially to be accurate in reporting deaths, but even in this respect we do not dare claim complete accuracy. We shall be grateful for any corrections sent us so that the University records may be rectified.

The directory is in three parts. The first is a general alphabetical list containing full information about each person. The second consists of departmental, class, and school lists. The third is a geographical distribution of the living according to our records of the date of March 10, 1926.

In the compilation of the directory the editor has been especially indebted to the following assistants: Mrs. Marie Ohle Mead (AB Goucher '13), Miss Lenore Piquette (AB Wellesley '22), Miss Esther M. Rogers (AB Goucher '22), Miss Charlotte Stout (AB Goucher '23), Mrs. Edna H. Richards (AB Goucher '23), Mrs. Dorothy Shargreen Regester (AB Goucher '25), Miss Leonora McIntire (student in the Johns Hopkins College for Teachers).

Mr. C. W. Dittus, Manager of the Johns Hopkins Press, has been most helpful with suggestions concerning the typographical appearance and general style of the book.

W. NORMAN BROWN  
EDITOR

## ABBREVIATIONS

Most of the abbreviations used in the body of this work should be sufficiently obvious to need no explanation. A few used to describe the Johns Hopkins connection are not so easily interpretable.

arts.....Student in the College of Arts and Sciences.  
 bus econ.....Student in the School of Business Economics.  
 ct.....Student in the College for Teachers.  
 eng.....Student in the School of Engineering.  
 ev.....Student in the evening courses in Business Economics and Engineering.

Fel.....Fellow.

F by C.....Fellow by Courtesy.

g.....Student in the Graduate School of Philosophy.

hyg.....Student in the School of Hygiene and Public Health.

med.....Student in the School of Medicine.

med spec.....Attendant upon special courses for physicians at the School of Medicine.

SATC.....Student enrolled only for the Student Army Training Corps, attending in the fall of 1918 until demobilized December 10th.

soc econ.....Attendant upon courses in Social Economics.

ss.....Attendant upon Summer Courses.

The degrees that have been awarded by the University, arranged under the schools sponsoring the candidates, are as follows:

Graduate School of Philosophy—

PhD.....Doctor of Philosophy.

AM.....Master of Arts.

School of Medicine—

MD.....Doctor of Medicine.

School of Hygiene and Public Health—

DPH.....Doctor of Public Health.

DSc in Hyg....Doctor of Science in Hygiene.

BS in Hyg....Bachelor of Science in Hygiene.

College of Arts and Sciences—

AB.....Bachelor of Arts.

School of Engineering—

Dr Eng.....Doctor of Engineering.

M Eng.....Master of Engineering.

MCE.....Master of Civil Engineering.

MEE.....Master of Electrical Engineering.

BS in E.....Bachelor of Science in Engineering.

BE.....Bachelor of Engineering

BS in Chem....Bachelor of Science in Chemistry.

School of Business Economics—

BS in Econ....Bachelor of Science in Economics.

College for Teachers—

BS.....Bachelor of Science.

Certificates have also been awarded as follows:

PAE.....Certificate of Proficiency in Applied Electricity.

CPH.....Certificate in Public Health.

## ALPHABETICAL LIST

For abbreviations see p. vii. In giving addresses the names of states have been omitted for well known cities such as New York, Chicago, Philadelphia, Boston, Baltimore, and others. The names of states are abbreviated in accordance with the practice of the U. S. Postal Guide. In this connection it should be noted that New York always means New York City; NY always means New York state. Similarly Washington means Washington, D. C., and Wash. means Washington state. There should be no confusion in other cases.

Punctuation has been omitted wherever it seemed possible to do so without sacrificing clearness.

## SCHOOL, DEPARTMENTAL, AND CLASS LISTS

In the Trustee list the dates of trusteeship immediately follow the name.

In the Honorary Degree list the honorary degrees, with their dates, immediately follow the name.

In the list of the Graduate School of Philosophy, the students are grouped according to the departments in which they did their major work.

The graduates of the Medical School are arranged according to the classes with which they were identified. In a few cases the degrees were not granted at the usual time of graduation. Some were even granted in different years.

The students of the School of Hygiene and Public Health are arranged in alphabetical sequence with dates following the names.

The Graduate Students in Engineering are listed alphabetically with dates immediately following the name.

Undergraduate students of the College of Arts and Sciences, the School of Engineering, and the School of Business Economics are arranged according to class affiliation. In the case of a few of those who were awarded degrees, the date of award does not correspond with the class affiliation. These are men who graduated either before or after their classes. If a degree was awarded with the class, the degree alone is indicated; if it was awarded in another year, the date follows the degree in parentheses. The class rolls extend down to the class of 1928. Undergraduates of classes still in residence have no dates following their names, unless they have left the University.

Holders of certificates of Proficiency in Applied Electricity are arranged according to years of award.

The College for Teachers list includes only matriculates and candidates for matriculation who have actually attended courses in the College for Teachers after having matriculated or having been accepted as candidates for matriculation.

Following each name appears any additional connection of the person with the following departments of the University: Graduate School of Philosophy, School of Medicine, School of Hygiene and Public Health, College of Arts and Sciences, School of Engineering, School of Business Economics, or Board of Trustees. In the Trustee, Honorary Degree, Graduate School of Philosophy, School of Hygiene and Public Health, Graduate Students in Engineering, and College for Teachers lists, the additional Johns Hopkins connection appears in parentheses. In the case of the graduates of the Medical School, undergraduate students, and holders of certificates of Proficiency in Applied Electricity, the connection immediately follows the name without being enclosed in parentheses.

There are some students whose names do not appear in any of these lists, such as those medical students who attended but left without graduating.

On any of these lists an asterisk (\*) before a name means that the person so noted is dead or reported dead.
